

3rd Global Experts meeting on Medicinal Chemistry and Drug Design- Awards 2020

Shin Aoki

MEDICINAL CHEMISTRY 2020

On behalf of Pulsus, it is my great pleasure to welcome all the great scientists, academicians, young researchers, business delegates and students from all over the world to the “3rd Global Expert Meeting on Medicinal Chemistry and Drug Design”. - [Medicinal Chemistry 2020](#). As with all previous congresses, Medicinal Chemistry 2020 encourages collaborations among chemical scientists to improve the quality of life throughout the world. Our outstanding technical program truly represents collaborations between scientists from at least three different countries. The result of such collaborations can only bring improvements in technical development and a better quality of life for all people.

AWARDS

The Award is recognizing outstanding contributions in a specific field to a person or group of people. The award may also be or be accompanied by a certificate, title or diploma, as well as an object of direct value such as money or a scholarship.

List of Awards in the Conference

- Keynote Speaker Awards
- Speaker Awards
- Delegate Award
- Young Research forum
- Video Presentation
- Poster Presentation

KEYNOTE SPEAKER AWARDS

A keynote speaker and their speech are often selected to raise the voice of interest in an event, such an event or large meeting sponsored by a corporation or association and draw attendees to the program. Selecting an eminent keynote speaker who is well specialized for his or her expertise in a field of Medicinal Chemistry, or who has wide name recognition due to other accomplishments, will raise among prospective attendees for a meeting or congress. This [Keynote speaker](#) should be able to recognize the essence of your meeting and be able to highlight it to your audience and participants in a short period of time.

Eligibility criteria

- The abstract should be submitted to the portal, to review the paper for keynote session
- Speaker should be Professor, Director, Chairman, Doctor, or any eminent Person
- The speaker should be present at the conference.
- The speaker should have affiliation from University, Research Center or high Organization

SPEAKER AWARDS

Speakers in the academic conference will have less affiliation comparatively with Keynote speaker. They will be beginners or learners in the field of Medicinal Chemistry. The speech of the Speakers slot will be at the end of the session and they will be learning new ideas from the conference

Eligibility criteria

- The abstract should be submitted to the portal, to review the paper for the keynote session
- Speaker should be Professor, Asst. Professor, and Technical Person.
- The speaker should be present at the conference.
- The speaker should have affiliation from University, Research Center or any academic Organization

DELEGATE AWARD

Conferences provide opportunities for the delegates to meet and network with eminent researchers and practitioners in the field of medicinal and drug design, to share and hear the results of the latest research and encourage the formation of new working and ideas. Outlined in this document are ways you can enhance your experience of attending conferences. These suggestions have been collected from conference evaluations, discussions with delegates at several conferences, and personal experiences.

Eligibility criteria

- The abstract is not required for the conference
- The delegate should be most interactive and attentive during the conference
- The person should have been already attended several conferences in the field of Green chemistry

YOUNG RESEARCH FORUM

The aim of the Young Researchers Forum is to motivate and bring together young researchers in the field of medicinal chemistry and the forum provides an energetic place for discussing potential and ongoing research at any stage, from idea to results. The congress strives to provide a friendly and healthy environment to allow young researchers to get feedback on their work, ask questions, exchange experiences, and explore pathways open to them. the forum stimulates interaction among the young researchers, experienced researchers, and industry. be inspired and learn about research paths. Ph.D. candidates, young researchers at any stage of their research. The Young Research Participation is open to all who considers themselves as a ‘young’ researcher, wanting to share research ideas and (preliminary or mature) results with their peers and looking for an opportunity to inspire

Eligibility criteria

- The abstract should be submitted to the portal, to review the paper for Young Research Forum
- Speaker should be Student, related to the Medicinal Chemistry field
- The speaker should be present at the conference.

Shin Aoki

Professor of Faculty of Pharmaceutical Sciences, Tokyo University of Science, Japan, E-mail: shinaoki@rs.noda.tus.ac.jp

- They should have special involvement and interest in their participation

VIDEO PRESENTATION

The Video presentation should be presented by the participant who is unable to present during the conference, the video presentation should be Informative, Demonstrative, Persuasive, and Inspirational. The presentation should explain the clear work of the paper with clarity. The E-certificates will be provided to the participants who presented the work

Eligibility criteria

- The abstract should be submitted to the portal, to review the paper for Video presentation
- The participant's presentation video should be clear and short
- The participant should be in the field of medicinal chemistry and drug design

- They can be Doctor, Professor, Dean, Director, and a student

POSTER PRESENTATION

The poster presentation is the simple work done by the participants; there are two types of poster presentation onsite and E-poster presentation. The person unable to take part in the event can proceed with the E-poster presentation. The poster should contain the details of their work with the name and affiliation. Certificates will be provided for the participants

Eligibility criteria

- The abstract should be submitted to the portal, to review the paper for poster presentation
- They can be Doctor, Professor, Dean, Director, and a student
