

Human Fertilization and Embryogenesis

Ashok Omar*

Omar A. Human Fertilization and Embryogenesis. J Reprod Biol Endocrinol. 2020;4(2):1.

I am pleased to mention that during the year 2019, all issues of volume 3 were published online well within the time and the print issues were also brought out and dispatched within 45 days of publishing the issue online.

Journal of Reproductive Biology and Endocrinology is an scholarly Open Access journal that aims to publish the most complete and reliable source of information on discoveries and current developments in the mode of original articles, review articles, case reports, short communications, etc. in all areas of the field, making them freely available online to the researchers worldwide without any subscriptions. The Journal is using Editorial Manager System for quality in online manuscript submission, review and tracking. Editorial board members of Research & Reviews: Journal of Reproductive Biology and Endocrinology or outside experts review manuscripts; at least two independent reviewer's approval followed by the editor is required for the acceptance of any citable manuscript.

Journal of Reproductive Biology and Endocrinology has published articles related to ovarian and gamete physiology, folliculogenesis, neuroendocrine control mechanisms, genomics and proteomics of reproductive process, fertilization, embryo and placenta development, pregnancy management, genetic diagnosis, ovulation induction, general gynecologic and obstetrical women's health care, endoscopy and microsurgery, reproductive toxicology, gamete and embryo cryo-preservation, assisted reproductive technologies, male and female infertility, prenatal gynecologic oncology and urogynecology.

According to the Google Analytics, 3,940 readers are visiting to our journal websites for submitting manuscripts, to browse the latest research published on public Reproductive Biology and Endocrinology. Most of the papers are from United States of America, India, china, where Medical and Health related research is more. Average publication of paper will be 45 days and after accepting the paper will be under per reviewed process for 21 days, then the accepting paper or article will takes 7 days for publication.

We develop this journal for awareness and to help many peoples and students about how to develop embryo at different level of techniques and

typical types of Reproductive and fertilization disorders and symptoms and how to diagnose these disorders.

Now Reproductive biology and endocrinology is one of the major things in our study life and research life because it plays a major role in our life.

The coming year we are going to publish the articles related to Human Reproduction, Reproductive Development, Reproductive Technologies, Hormonal Regulation, Gamete Production, Fertilization and Embryo Development, Reproductive Cancers, Pregnancy, Conception, Labour and Delivery, Abortion, Contraception, Menstruation, Manopause, Infertility, Reproductive Medicine, Reproductive Toxicology, Sexually Transmitted Diseases, Urologic and Gynecologic Disorders, Reproductive Physiology, Genomics and Proteomics Immunity in Reproduction.

As of today's society, the use of social media has become a necessary daily activity, it is a valuable tool locally and worldwide, so we will communicate with the Researchers, Students, Scholars, Scientists, Professors, Deans, Institutes, Universities, and all the members related to the subject through LinkedIn, Twitter, Face book, My Live Chart, WhatsApp. We post the upcoming Issue and Journal highlights and current research works in social networks. So that all the members can work on the research and submit their papers.

I take this opportunity to acknowledge the contribution of authors during the final editing of articles published and the support rendered by the editorial assistant in bringing out issues of Journal of Reproductive Biology and Endocrinology in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of Research Journal of Reproductive Biology and Endocrinology, the office bearers and staff for their support in bringing out yet another volume of Journal of Reproductive Biology and Endocrinology and look forward to their unrelenting support to bring out the Volume 9 of Journal of Reproductive Biology and Endocrinology in scheduled time.
