

Research Advancements in Psychiatry

Gregory Carter

After Successful completion of [Psychiatry 2019](#) PULSUS group is happy to announce the next series of a psychiatry summit “**3rd Global Experts Meeting on Psychiatry and Mental Health**” which has been scheduled in **April 20-21, 2020** at **Tokyo, Japan**.

Psychiatry 2020 centralized around the theme of “**Early Intervention in Psychiatry and Management of Mental Health Disorders**”

[Psychiatry 2020](#) aims to bring all the Psychiatry and Mental Health professionals under all Psychiatry fields for our Psychiatry Meeting to interact and share their knowledge and their newest research to the entire Psychiatric professional's Community. This conference focusses on to gather professional speaker and delegate participants from all over the world to share and gain new ideas and knowledge.

This two-day conference comprises of Keynote talks, Oral/Poster Presentations, Workshops and Exhibitions.

This year the main highlights of the conference revolve around Child & Adolescent Psychiatry, Research studies on Schizophrenia, Depression and anxiety, Interventions in Treating Mental disorders, etc. The Scientific Program is focussing on current research developments on Research trials and current findings.

We welcome clinicians and professionals from all fields of research and practice in psychology and mental health to present and discuss the latest innovations, trends, concerns, practical challenges and solutions adopted in the field of psychiatry and mental health. Participate and make our event a successful one.

Past Conference Report

Psychiatry and Mental Health Conference has successfully completed its 2nd Edition from the

extreme and successful support from the Participants and Collaborators. We must thank the attendees, Holiday Inn Aurelia, Conference Centre Staff, the Organizing Committee, Ad-Sponsors, Media partners and everyone else that helped to make this **2nd Global Experts Meeting on Psychiatry and Mental Health** with the theme, **Emerging Concepts & Research Ideologies in Psychiatry for Mental Health Wellbeing** a huge successful conference.
