

Unleash your research ideas at Mental Health 2020

Ian James Martins

After our "World Congress on Mental Health" has been successfully completed, we are proud to announce our next "2nd World Congress on Mental Health" series in Paris, France, June 24-25, 2020. The theme of the conference is: Unwind the mysteries of human decorum.

The conference runs under the theme "**Future development in the field Material Physics**"

Detailed information on [Mental health](#) and psychology will be discussed in the Conference with the eminent researchers across the world. Psychologists are people who understand and offer a solution to human behaviour. Most scientists still find the mystery of mind daunting. Therefore, all researchers and individuals interested in psychology and [mental health](#) are invited to share in the respective field knowledge of methods and the latest technologies.

[Mental Health 2020](#) focuses on the connection between mind and behaviour. The conference provides a panel for all researchers and students to exchange new [Psychology](#) and [Mental Health](#) technologies or information.

The conference will be an experience for its informative symposia, seminars and excellent keynote workshops by well-recognized experts in the field. It will also prove a brilliant open door for university and institute members to partner with internationally recognized academics and to provide companies interested in extending their global market scope.

Mental Health 2020 majorly focuses on Mental Health, Psychology and Psychiatry, Child and [Adolescent Mental Health](#), [Psychological Resilience](#), Psychosis Disorder, [Mental Health Nursing](#), Stress, Anxiety and Depression, [Conduct Disorder](#), Bipolar Disorder, [Mental Illness](#), Autism, Eating Disorder, [Addiction](#), Schizophrenia, Obsessive Compulsive Disorder, Physical and Sexual Abuse, Reactive Attachment Disorder, Post-Traumatic Stress Disorder, [Oppositional Defiant Disorder](#), Mental health Therapies.

PULSUS cordially welcomes academicians, researchers, students and business professionals to this rostrum to interact and share their knowledge in the field of [mental health](#) and psychology.
